**Faunistics, new record, Coleoptera, Bostrichidae, *Scobicia chevrieri*, Czech Republic, Moravia**

**Abstract.** The species *Scobicia chevrieri* (A. Villa et G. B. Villa, 1935) is newly recorded from the Czech Republic (Moravia).

#### **Coleoptera: Bostrichidae: Bostrichinae: Xyloperthini**

***Scobicia chevrieri* (A. Villa et G. B. Villa, 1935).** Czech Republic, Moravia, Velká nad Veličkou (7171), 4.vii.2022, on light on balcony of house in intravillage of small city, J. Habarta lgt., 1 spec.; 13.viii.2024, 3 spec.; 9.vii.2024, 1 spec., J. Habarta lgt. and coll. (Velká nad Veličkou), P. Zahradník det.

According to Borowski & Węgrzynowicz (2007) this species is distributed in the Mediterranean Region (South Europa, North Africa and Middle East) and introduced to the U.S.A. Zahradník & Háva (2024) quoted this species also from Caucasus, and the southern part of East Europe (Albania, Bosnia and Hercegovina, Bulgaria, Croatia, Romania, Slovenia) and Central Europe (Austria, Hungary, Slovakia, Switzerland). This is the first record of this species from the Czech Republic (Moravia).

**ACKNOWLEDGEMENTS.** The paper was supported by the Ministry of Agriculture of the Czech Republic, institutional support MZE-RO0118.
